

Blackstone River Valley National Heritage Corridor and
Blackstone River Valley National Historical Park
are pleased to offer

Volunteers-In-Parks Skills Workshop Series

Cemetery Conservation Skills

Tuesday, June 18 ♦ 6:30 p.m. – 8:15 p.m.

First Congregational Church, 307 Boston Road, Sutton, MA

The Skills Workshop Series is designed for volunteers to learn a new skill, sharpen skills you already have, and open new doors for future volunteer opportunities. Workshops count toward VIP training.

Back by popular demand! Betty and Carlo Mencucci present a Cemetery Conservation Skills Workshop for the Sutton Historical Society.

Have you ever walked into an old cemetery and seen fallen, broken and leaning gravestones and wondered what you could do about it?

This workshop, presented by Blackstone Heritage Corridor volunteers Betty and Carlo Mencucci, will introduce you to the proper method of conserving gravestones. You will learn about various stone types as well as different techniques and materials used in the conservation process.

This workshop will provide you with a better understanding of the elements of these historic gems and you will be able to advise people on how to help care for neglected graveyards.

Pictured above are volunteers Betty and Carlo Mencucci, professional gravestone conservators and members of the Association of Gravestone Studies and the Burrillville Historical & Preservation Society.

Open to all with interest. Registration is not required.

Sponsored by the Sutton Historical Society.
